

**For more than a decade I've
been singing to appreciative
audiences from New England
to El Paso, Florida to L.A. ...**

When Singin' Steve performs his original songs, everybody in the audience is encouraged to participate. My songs about the dangers of eating watermelon, the pleasures of Snapper fishing, magical butterflies, dancing penguins, educated Word Birds, and all kinds of other crazy, wonderful things will have the whole family singing and dancing along.

I am thankful that my "grown up" songs have been recorded by artists like Merle Hagard, Dolly Parton, and Phoebe Snow, and earned gold and platinum records all over the world. I am gratified that my children's songs, books, and curriculum materials are used in early childhood classrooms all over the world. But nothing beats the thrill of singing before a live audience. That is why I would like to sing for you.

“Singin Steve came to town recently.

To our small community of Mattituck, NY, located on Long Island's beautiful north fork. He generously donated his time and talent to perform a family concert to raise money for Community Action of Southhold Town, Inc., a small non-profit human service agency. The show was held on a rainy spring Sunday afternoon at the local elementary school and despite the weather, the spirits inside could not be dampened!

Steve's catchy tunes had the audience on their feet, dancing and singing along. The "parade" grand finale had every kid and grown-up marching across the auditorium! The show was a blast for everyone and the kids never caught on that they were learning along the way.”

Liza Rosen, Program Coordinator, Community Action of Southhold Town, Inc.

**I’ M SINGIN’ STEVE.
I’M HERE TO SAY.
YOU’RE GOING TO HAVE
SOME FUN TODAY.
IF YOU DO WHAT I DO.
AND SING WHAT I SAY.
YOU’RE GOING TO HAVE,
A BALL TODAY.**

I have performed for audiences from New England to Florida, and California to The Big Apple. And where ever I perform children and grown-ups have a great time! Just about everyone who attends one of my live performances participates and has fun! I make sure every one has the lyrics to my songs so everybody can sing along. My concerts are 35 – 90 minutes long but I guarantee that many of the songs we sing together will remain with you and your children forever. My lyrics stress the positive things in life. Children and families sing about the benefits of self awareness, communication, the miracle of growing up, the rewards of being a child and being a parent,, the magic of learning and the power of love. My songs transport the audience to musical, magical lands where learning, loving and communication make anything possible.
